

MOLDOVA

Between Romania and the western part of Ukraine, this Black Sea State has huge potential with over 100,000 hectares in vine, three times the size of New Zealand's vineyard area. A perfect climate for wine making.

Our Henry Boon Pinot Grigio quite rightly is selected because of the quality displaying perfect varietal characteristics.

ROMANIA

Romania has one of the oldest wine making traditions in the world dating back some 6,000 years. Today Romania has about 188,000 hectares of vine production and is ranked in sixth place within the European wine growing countries and 13th largest wine producer on the world stage.

We purchase our wines from Cramele Recas, a privately owned part British company established some 17 years ago. About 5 years ago we introduced Umbrele Merlot and Sauvignon Blanc which have proved firm favourites with many of our customers along with Calusari Pinot Noir which is also from Cramele Recas. This year we have decided to extend the Calusari range adding a Riesling.

The wine making philosophy is simply to apply the absolute best production methods to every single wine and to enhance and preserve the natural quality of the grapes every year and at every level of production.

Romania is an up and coming wine region and worth discovering whilst prices are still relatively low. Many of our customers who have tasted these wines for the first time have been amazed at the quality of the wine making which expertly extracts pure varietal fruits and gives a wonderful balance and finish.
